Are fair taxes right for you?

Find out.

The **campaign for fair taxes** is a project of the Coalition to Build a Better BC.

The public, community and cultural services that we have built together over the years are what make BC a great place to live. They help to ensure that every British Columbian can participate and share a quality of life that is recognized around the world.

They really are the best deal in town!

With the HST referendum coming up on June 24 British Columbians will be talking about taxes – even more than usual. Should we keep the HST? Should we go back to the PST/GST?

It's a tough choice.

What shouldn't be tough is to decide to fight for a tax system that is really fair. A tax system that says: care for the elderly, education for young people, help for the needy is more important than a third luxury SUV in the driveway of a multi-million dollar mansion.

That's the real issue on June 24 – and every day. That's your choice at every election. Which vision do you choose?

Don't you want to give your family the best deal in town!
