

Joe Basran for Trustee

Good day Brothers and Sisters,

I currently sit on the "National Health and Safety Policy committee" (NHSPC) representing the BC region since 2015. I work with my fellow Union Sisters and Brothers to try our best to resolve health and safety problems Canada wide, implement new health and safety polices to better the membership. I am also the local Health and Safety Officer for the Brinks Kelowna branch, where my duties consist of walk through premise checks looking for any Health and Safety concerns and deal with all employee Health and Safety concerns in a timely manner. Further duties entail night time trainer where I am responsible for training new hires on night work

procedures and security. My additional casual employment I am a city bus and limousine driver. I always put the membership first and have their best interests. I thank-you for your time and look forward being your trustee. Thank-you.
