

Greetings Members of Unifor Local 114

I come to you in support as the current President of Local 114 for the upcoming Local elections in July. I have served our membership for 16 years as Local President and seeking re-election for a final 3-year term before retirement ending a 38-year career working for the betterment of working people, their families, and communities. My service to the membership has always been placed before my own, long days working weekends and during vacation has been the norm to do my best for our membership. We have incurred some difficult times in the past 3 years within our Local and now we emerge and start the process of a united Local building on the strength of our members and ready for the challenges before us all. Elections, Provincial or Federal we are there for the working people, Picket line support, rallies and demonstrations is all part of our commitment, and I would be proud to continue along with our Local Executive, Shop Stewards and Unit Committee Representatives to reenergize our commitment to you, our members.

I ask for your continued support in re-electing me as your Unifor Local 114 President for a final term and together we can get it done.
